- <Key Insights>
- ◆ Overall sales trend shows strong upward growth, particularly between 2016 and 2017.
 - ◆ Sales were driven mainly by the Technology category, especially Phones and Copiers.
 - ◆ The highest profit margins came from smaller Office Supplies products, while big electronics had high sales but lower margins.
 - ◆ The Consumer segment accounted for over 50% of total revenue, but Home Office customers showed the highest average order value.
 - ◆ West and Central regions were the top contributors to sales, while South and some East regions had relatively lower profit margins.
